

Hogan's Yuba Emerger

hook - Dai Riki 320 #16
 thread - UTC 70 tan
 shuck - Congo Hair amber
 abdomen - tying thread
 underwing - CDC tan
 collar/pfd - caribou hair
 wing - deer hair

	<p>tie in CH, fold, wrap back to point above barb and back to tie-in; trim shuck</p>		<p>measure CDC (tips half shuck length); tie in</p>
	<p>clean a clump of caribou, trim out tips; tie in and let it spin</p>		<p>trim collar</p>
	<p>clean, stack, measure (half shuck length) a clump of deer hair; cut to length, tie in, let butts flare (a few wraps through the the butts will prevent torqueing and keep the wing on top)</p>
